

Monthly Progress Report
for
December 2001
NAS-99055
Thomas F. Lang, PhD, Principal Investigator

1. Overall progress

All three members of the increment 3 crew were scanned on the 27th and 28th of this month. The data were of excellent quality and now we have a total of five crew members with baseline and return visits. We have analyzed these images and are ready to send results to the crew members.

2. Problems

There are no current problems with the spaceflight component of the project, which is working very smoothly. The data are of excellent quality, the subjects are enrolling and are being scheduled without difficulty.

3. Next Monthly Reporting Period

We will prepare the operational accomplishments report during this time period.
